Professional Profile

Lead Project Execution & Reliability Engineer with 10+ years of experience delivering installation, maintenance, commissioning support, troubleshooting and reliability improvement for airport logistics, material handling systems and automated parking solutions across the UAE and Saudi Arabia. Proven experience executing engineering activities in live operational environments where safety, equipment availability and business continuity are critical. Recognized for structured problem-solving, multidisciplinary troubleshooting, client coordination, procurement support and technical leadership while collaborating with OEM automation teams on PLC-controlled systems.

Core Expertise

Project Execution

- Project Execution
- Site Leadership
- Installation & Commissioning Support
- Shutdown Planning
- Technical Documentation

Reliability Engineering

- Preventive & Corrective Maintenance
- Root Cause Analysis
- Electrical, Mechanical & Hydraulic Troubleshooting
- Operational Recovery

Airport Logistics

- Airport Cargo Handling Systems
- Material Handling Systems
- Conveyor Systems

- Automated Parking Systems

Leadership

- Client & Supplier Coordination
- Technical Reporting
- Engineering Planning
- Cross-functional Team Leadership

Professional Experience

AEDLER Logistik Solutions GmbH, Dubai Branch

Electrical & Automation Engineer (Project Execution, Maintenance & Reliability)

February 2023 – Present | Dubai, UAE / Saudi Arabia

Key Contributions

- Executed installation, maintenance, troubleshooting and commissioning support for airport logistics, material handling and automated parking systems.
- Supported the DHL Riyadh Gateway expansion project through engineering planning, procurement support, manpower coordination, unloading strategy and commissioning readiness.
- Performed multidisciplinary electrical, mechanical, hydraulic and PLC-assisted field diagnostics to restore operational continuity.
- Prepared technical reports, engineering documentation, material specifications and supplier evaluations.
- Coordinated clients, subcontractors, suppliers and technicians across multiple projects and maintenance contracts.
- Supported engineering activities within live airport operational environments while minimizing disruption to ongoing logistics operations.

Selected Clients: DHL Riyadh Gateway | DHL Saudi Arabia Head Office Conveyor System – Dhahran (Al Khobar) | DHL Jeddah Gateway | Saudia Cargo TCT | Multiple Commercial & Residential Automated Parking Projects – Dubai

Emirates Flight Catering LLC

Automation Technician

October 2018 – January 2023 | Dubai, UAE

- Maintained Electrical Monorail System (EMS), ASRS, conveyor systems and warehouse automation in a 24/7 production environment.
- Executed preventive and corrective maintenance, emergency breakdown response and reliability improvement activities.
- Performed multidisciplinary fault diagnosis covering electrical, mechanical and automation systems.

- Supported PLC field diagnostics, SCADA/HMI monitoring and VFD-based equipment.

International Food & Consumable Goods Co. Ltd.

Electronic Technician

December 2014 – August 2016 | Saudi Arabia

- Maintained PLC-controlled production equipment and industrial electrical systems.
- Performed preventive maintenance, troubleshooting and production support.
- Supported equipment installation, startup and maintenance shutdowns.

Unidad Technologies Pvt. Ltd.

Assistant Test Centre Administrator

June 2017 – September 2018 | India

- Managed technical operations, IT infrastructure and operational readiness for a TCS iON examination centre.

Selected Engineering Projects

- DHL Riyadh Gateway Expansion – Engineering execution, procurement support, site coordination and commissioning readiness.
- DHL Riyadh, Dhahran & Jeddah – Preventive maintenance, corrective maintenance and reliability improvement.
- Saudia Cargo TCT – Cargo handling maintenance, hydraulic troubleshooting and operational support.
- Commercial & Residential Automated Parking Projects – Installation, testing, commissioning support and client handover.

Technical Expertise

Airport Cargo Handling Systems • **Material** Handling Systems • **Conveyor** Systems • **Automated** Parking Systems • **Hydraulic** Lifting Equipment • **PLC** Field Diagnostics & I/O Verification • **Siemens** S7-300 (Working Knowledge) • **SCADA/HMI** • **Variable** Frequency Drives • **Project** Execution • **Commissioning** Support • **Root** Cause Analysis • **Technical** Reporting • **Procurement** Support

Education

Bachelor of Technology (B.Tech) – Electrical & Electronics Engineering
